MEDICINAL.

THE FIRST STEP

Of the child is an event in the mother's life. How promptly she feels when the attempt to walk is begun so early as to evidence childish courage and sturdy strength. Such pride should be enjoyed by every mother. But it often happens that the child is timid, weak and deficient in vitality, and clings to the mother's arms with no desire to walk or play.

Mother should learn that to have strong children they must themselves be strong, for the child's strength is the gift of the mother.

The use of Dr. Pierce's Favorite Prescription by expectant mothers gives them health and strength to give their children. It nourishes the nerves, strengthens the body and gives great muscular strength and elasticity, so that the baby's advent is practically painless.

"I have been using Dr. Pierce's Favorite Prescription, and can say it is just what you advise me to be, and can cheerfully recommend it," writes Mrs. Victor L. Hadin, of Leonardville, Riley Co., Kansas. "I began taking it just two months before baby came and was greatly benefited by its use. The doctor who attended me said I did about as well as any one he had seen (as I was sick only about three hours), and also that your 'Favorite Prescription' was 'the one patent medicine' which he did have faith in."

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for weak women.

The People's Common Sense Medical Adviser, a book containing 1000 pages, is given away. Send 21 one-cent stamps for expense of mailing only, for the book in paper covers, or 31 stamps for the volume bound in cloth. Address Dr. R. V. Pierce, Buffalo, N. Y.

CATARRH Nasal Catarrh

In all its stages there should be cleanliness.

Ely's Cream Balm cleanses, soothes and heals the diseased membrane. It cures catarrh and drives away a cold in the head quickly.

CREAM BALM is placed into the nostrils, spreads over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce soreness. Large Size, 50 cents at drug stores or by mail. Trial Size, 10 cents by mail. ELY BROTHERS, 56 Warren Street, New York.

WEAK LUNGS

Weak lungs are mostly due to a neglected cough. Only a small per cent. of the millions who have consumption inherit it. A slight cold, a tickling or hacking cough is the beginning, and after it has reached a certain advanced stage there is no ending except the grave.

Any case of consumption that is curable; that is, any one having consumption whose family or friends still hold on to a ray of hope, may take comfort in the knowledge of the fact that One Minute Cough Cure will give instant relief and finally cure.

"This famous remedy does not pass immediately into the stomach, but lingers long in the throat, cleans and soothes, producing the following results:

- (1) Relieves the cough.
- (2) Makes the breathing easy.
- (3) Cuts out the phlegm.
- (4) Draws out the inflammation.
- (5) Kills the germs (microbes) of disease.
- (6) Strengthens the mucous membranes.
- (7) Clears the head.
- (8) Relieves the feverish conditions.
- (9) Removes every cause of the cough and the strain on the lungs.
- (10) Enables the lungs to contribute pure life-giving and life-sustaining oxygen to the blood. Cures Croup and all Cough, Lung and Bronchitis Affections.

CONSUMPTION CURED.

"My physician told me one year ago that I would die of consumption inside of a year. I commenced taking One Minute Cough Cure for my lung trouble and I cured me. I have gained 20 pounds, I am a pretty live 'dead woman' One Minute Cough Cure saved me." MARY F. SULLIVAN, Grand Rapids, Mich.

Pleasant to the taste. Good for Children. Good for every body. For Coughs, Colds, Croup, Whooping-Cough, Bronchitis, Asthma, Pneumonia and all Throat and Lung troubles no remedy is so good as

ONE MINUTE COUGH CURE.

MYSTERIOUS CRIME.

Edwin L. Burdick, a wealthy man, president of E. L. Burdick & Co., and of the Buffalo Envelope Company, was murdered early yesterday at his home, on Ashland avenue, in one of the finest residential sections of Buffalo. The theory at first advanced, that the crime was the work of a burglar, was abandoned as the police probed deeper into the case. While they say they have several important clues, no arrest has been made. Mr. Burdick was last seen alive at 10:30 Thursday night, when he bade the other members of the household goodnight and started for his room apparently with the intention of retiring. In the morning his body, clad only in an undershirt, was found on a couch in a small room off the lower hall, used by him as a smoking room. The body was covered with a rug and a number of sofa pillows. The couch was saturated with blood and the walls and floor were bespattered with brains and blood. The head had been crushed.

Chief of Detectives Cusack took charge of the case. A thorough examination of the house and its occupants was made. Nothing of value was missing. The outside door of the house was locked and the spring lock was in its place when the servants got up in the morning. The inner door was ajar. A kitchen window was partly raised, but there were no marks on the snow outside or on the window sill to indicate that anyone had entered. All the other windows and doors of the house were securely fastened. These facts shattered the theory of an unknown intruder.

Some interesting discoveries were made in other parts of the house. No weapon could be found anywhere. At the foot of the couch were found Mr. Burdick's stockings. His trousers and other articles of clothing were in his bedroom on the floor above. The bed had not been occupied. On the table in the smoking room the detectives found a bottle partly filled with whiskey and the remains of a light luncheon. Members of the family say that Mr. Burdick never partook of the food of which the luncheon consisted, and never drank liquor while eating. In this connection Chief Cusack said:

"From investigations I have made I would conclude that Mr. Burdick was called downstairs by a ring or a knock at the door after he was ready for bed. He evidently admitted someone he knew well and took the visitor into his 'den' for a talk, and to partake of the luncheon found there. There are some signs of a struggle. The fact that two of the fingers of Mr. Burdick's left hand were broken indicates that he put up his hand to ward off the blow which he saw coming."

The force with which the blows that killed Mr. Burdick were delivered seems to preclude the possibility that a woman delivered them. The murdered man's wife left home two months ago, with the intention, it is said, of not returning. On December 5 proceedings for divorce were filed in the County Clerk's office by Mr. Burdick. It is understood that Mrs. Burdick went to Atlantic City. What connection his domestic troubles may have had with the crime, the police do not presume to say.

HICKS FOR MARCH.

Mr. Hicks again predicts a great many storms in the forecasts. The first regular storm period for the month is from the 2nd to the 7th. The earth at this time is fully under the influence of the vernal equinox, blended with a Venus disturbance. From about the 3rd to the 6th all the charges and phenomena of a very decided storm period may be expected. A marked change to warmer and falling barometer will lead rapidly into cloudiness with rain and thunder storms will follow rains in central and northern sections, heavy snow squalls along the northern side of the country. In the rear of these storms will come sharp changes to cold, lowering the temperature quite close to the frost line in the far south.

A reactionary perturbation centres on the 9th and 10th. The moon being full and on the celestial equator on 13th, extraordinary electrical phenomena may be naturally looked for during this central period.

A regular storm period centres on the 16th and extends from the 13th to 20th, bringing with it exceedingly unsettled weather, with probably many heavy and some dangerous storms. Two decided disturbances are expected during this central period in March, one at the very beginning of the period, the other about the 17th and 18th. The storms will scarcely subside before the entrance to reactionary storm conditions due to the 21st and 22nd. This being the center of the vernal equinox, many squalls with much unpleasant weather may be counted on. Mingled rain, snow and raw winds will extend over all central, western and northern sections.

From 25th to 30th the last general storm period occurs, centering on the 27th with also a Mercurial perturbation.
